

**REMARKS**

Applicant would like to express his appreciation for discussing this case with applicant's representative, Mr. Alan M. Lenkin, on February 19, 2004, and for explaining his understanding of Age Of Rifles.

With the present amendment, independent claims 1, 6, 11, and 16 now recite determining whether the candidate character is an enemy character and flashing or not flashing the cursor based upon the results of the determination.

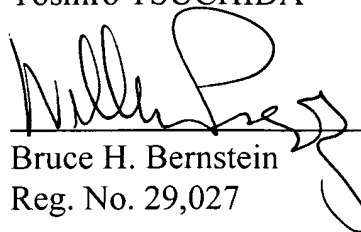

Independent claims 2, 7, 12, and 17 now recite receiving an attack instruction or a defense instruction, and changing the color of the cursor based upon which action has been selected *and* based upon whether the candidate character is an enemy character. The cursor is accordingly displayed in at least four different colors.

The amendments to the claims do not add any new matter. Support for the amendments is *found, inter alia*, at page 25 of the specification.
